Declaration of Compliance

Hypertherm Associates is committed to upholding and promoting policies which protect the environment, the health & safety of our customers, Associates, and end-users of our products in general. Our dedication to product environmental compliance includes engaging in design practices, material selection, and sustainable compliance processes that adhere to global standards established by the global community.

RoHS markings are affixed on products that are under the scope of the RoHS Directive. Products that do not bear the RoHS markings are classified as “large-scale stationary industrial tools” or are part of large, fixed installations – these products and components used in these products are exempt from the RoHS Directive.

To the best of our knowledge and based on data collected from our suppliers, Hypertherm Associates’ components do not contain chemicals that are in the Substances of Very High Concern (SVHC) list above the threshold allowed by the REACH Directive and PFAS regulations, registrations, and guidelines. As part of a continuous improvement initiatives, Hypertherm Associates is partnering with third-party providers to collect, assess, and maintain data records for the following regulations:

- Conflict Minerals
- EU REACH SVHC
- REACH Restrict (Annex XVII)
- EU RoHS Directive
- EU Waste Framework Directive (SCIP)
- CA Prop65 - Manufacturer
- EU Persistent Organic Pollutants
- TSCA Restrictions
- Toxics in Packaging
- EU Battery Directive
- PFAS
- WEEE
